

Hilton Software LLC announces WingX® Pro7 Support for Aspen Avionics' Connected Panel™

San Jose, CA - August 22, 2011: Hilton Software LLC today announced support for Aspen Avionics' Connected Panel. WingX Pro7, the leading iPad Navigation Application, will include comprehensive interoperability when Aspen Avionics' Connected Panel becomes available for installation by the end of this year. Aspen Avionics' Connected Panel includes hardware, software, and application components that provide two-way wireless communications between panel avionics and personal smart devices to streamline flight-related activities.

“The integration of WingX Pro7 with the Connected Panel’s open hardware architecture and application programming interface (API) adds tremendous value, easy-of-use, and error-free avionics programming. By combining WingX Pro7’s unique split-view, terrain overlays, in-flight weather, and Synthetic Vision with Aspen Avionics’ new Connected Panel, WingX Pro7 achieves a level of mobile avionics performance that is unparalleled in the industry. Aspen Avionics is leading the open-connectivity revolution and we are proud to be working closely with Aspen Avionics to bring best-of-breed features to our customers.” said Dr. Goldstein, CEO of Hilton Software LLC.

"We are excited to be working with Hilton Software to enhance pilots' overall experience with their mobile applications," says Brad Hayden, Vice President, Marketing for Aspen Avionics. "Hilton's large user base now has the option to seamlessly integrate their installed avionics with their personal devices to make both more useful in everyday flying situations."

Availability

WingX Pro7 is available for download from the App Store and iTunes. WingX Pro7 is iOS 3, iOS 4, iPad, and iPad 2 compatible. Synthetic Vision requires iOS 4. For additional information about Hilton Software LLC or its products, call 408-268-8418 or email support@hiltonsoftware.com.
